CHG Financial Highlights

CHG continued its steep growth trajectory in both the third quarter and the first nine months of 2023, achieving record-breaking top-line performances. CHG's consolidated revenues reached an all-time high of EGP 948 million in 3Q23, totaling EGP 2,532 million in 9M23, reflecting growth of 43% compared to the same quarter in 2022 and 33% growth in 9M23 versus 9M22.

CHG's robust performance is attributed to its ongoing investment in its organic business, which enabled the Group to effectively capture patients' complete treatment journeys. This focus on comprehensive care has resulted in a 35% growth in the Group's Core Business in 9M23. The Group's volumes also reflect this strong growth momentum, with 11% increase in cases served in 3Q23, bringing the total growth to 9% in 9M23. This growth is primarily driven by substantial year-over-year increases in Outpatient, Inpatient, and Surgical Procedure volumes, with each showing strong growth rates of 17%, 9%, and 6%, respectively in 3Q23, and 14%, 10%, and 6% respectively in 9M23.

Large, Attractive, and Resilient Growth Market

Egypt's health spending has increased at a greater pace over the past decade and is now above global and EM median as of 2022

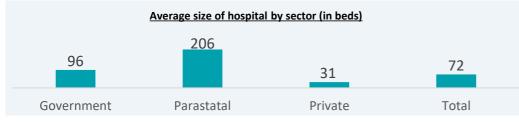

- Doctor/1,000 population ratio for Egypt is better than both MENA and GCC averages and for nurses it is at par with the MENA ratio.
- Beds/1,000 population in Egypt significantly lags MENA and GCC countries requiring significant investment to catch up with regional benchmarks
- Investments in healthcare infrastructure with an aim for comprehensive and technology driven healthcare provision will be key for Egypt's healthcare sector development the coming years

- Egypt is currently witnessing high private insurance and direct healthcare coverage contracts penetration, on the back of a growing middle class population that demands quality private healthcare services.
- Egypt's private healthcare sector offers lucrative opportunities
 on with the increase in population being a key driver. Egypt
 requires approximately 38,000 new beds (based on Egypt's
 ratio 1.3 beds/1,000 population) with an estimated investment
 of USD 8-13 billion to fill in the growing demand gap.

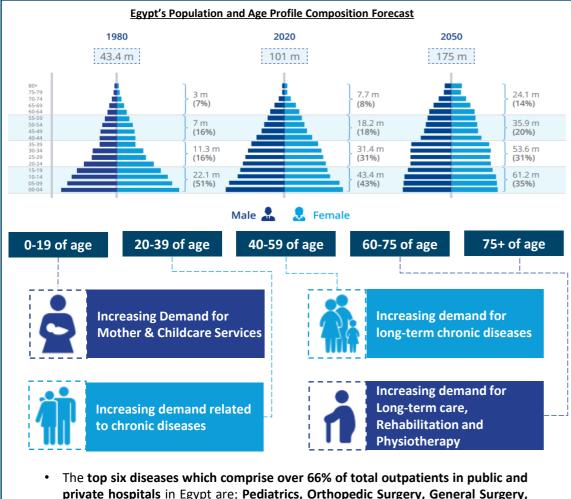

- During 2011–2019, number of beds in government sector (including parastatal sector) decreased at a negative CAGR of 0.8%, while private sector witnessed growth at the rate of 3.7% in number of hospital beds, reflecting increasing demand for private inpatient services.
- The growth of the healthcare sector in Egypt will be dependent upon embracing, developing
 and adopting new technologies and innovations within the private sector, with a focus on
 sizeable data driven, patient centric, and result oriented healthcare providers.

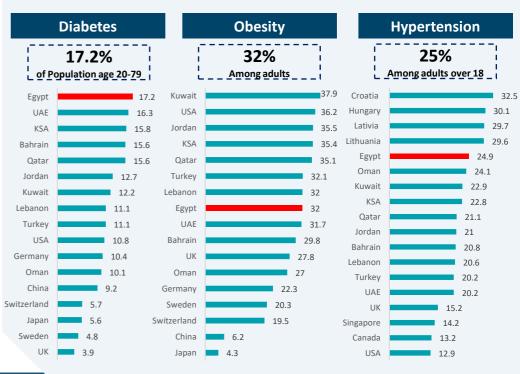

Growing Population & Prevalence of Lifestyle Diseases

- private hospitals in Egypt are; Pediatrics, Orthopedic Surgery, General Surgery, Dermatology and ENT.
- In the private sector, Internal Medicine, Pediatrics, OBG, ENT and Orthopedic Surgery comprise 48% of the total outpatient visits. This indicates that the demand for these specialties in Egypt is high and growing at a steep trajectory.

- The current population of Egypt stands at 105 mn (as of 2023) rising from 80 mn in 2010, a CAGR of over 2% for this period. Projections forecast Egypt's population to reach 130 mn by 2030 and 175 mn by 2050.
- Currently, 74% (c.75mn) of the population is under the age of 40 years and this is expected to increase to 86 million by 2030 and 115 million by 2050. 8% of the population is over the age of 60 years, which is expected to increase to 18 mn by 2030 and 24mn by 2050.
- The rate of Lifestyle diseases in Egypt has been growing exponentially. Diabetes, Obesity, and Hypertension related diseases have been on the rise amongst Egypt's adult population, indicating the need for Centers of Excellence that tackle this prevalence. Noticeably, these centers have been growing in numbers across the region on the back of this dominant trend.

3Q23 Financial Performance Overview

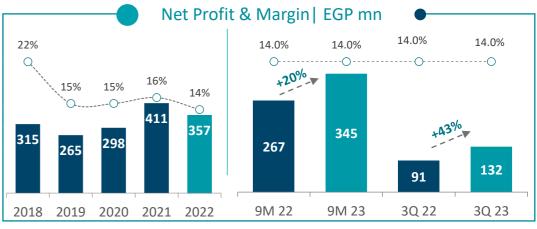

CHG continued its steep growth trajectory in both the third quarter and the first nine months of 2023, achieving record-breaking top-line performances. The Group's consolidated revenues reached an all-time high of EGP 948 million in 3Q23, totaling EGP 2,532 million during the first nine months of the year. This represents a significant increase of 43% compared to the same quarter in 2022 and 33% growth in 9M23 versus 9M22.

CHG's robust performance is attributed to its **ongoing investment in its organic business**, which has enabled the Group to **effectively capture patients' entire treatment journeys.** This focus on comprehensive care has resulted in a **35% growth in the Group's Core Business in 9M23**. The Group's volumes also reflect this strong growth momentum, with a **notable 11% increase in cases served in 3Q23, bringing the total growth to 9% in 9M23**.

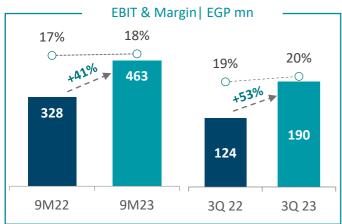

¹Adjusted EBITDA: Earnings before Interest, Tax, Depreciation and Amortization adjusted for provisions, impairments, LTIP, acquisitions expenses, pre-operating expenses and excluding contributions from other income.

Efficiency Strategies Lead to Optimized Profitability

CHG demonstrated sustainable productivity as management's multi-faceted optimization strategy continues to mature, management realized efficiency in the Group's Wages & Salaries component of its cost structure. The Group recorded 35% growth in Group's core business revenue throughout 9M23 while achieving efficiencies on both fronts.

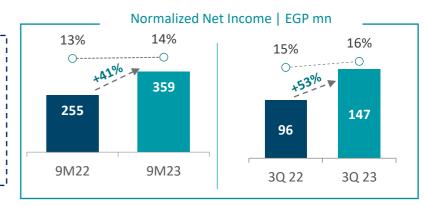

Profitability and margins remain preserved, management has effectively balanced the growth of its core business with the profitability of COVID-related services in comparable periods. This was made possible by shielding CHG's margins from inflation and supply chain pressures. Gross profit and EBITDA margins remained stable on both a quarterly and 9-month basis, with one-point expansion in EBIT margins.

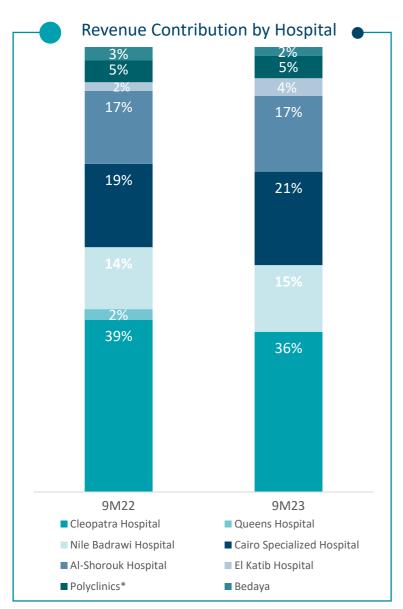

Operational efficiencies, cost management, and strategic price increases since January 2023 contribute to this stability.

The Group's income statement saw a **substantial 76% increase in interest expenses in 9M23** due to ongoing interest rate hikes and the Group's recent capital structure optimization efforts, normalizing net income to exclude the impact of interest on both periods' income statements reveals a strong and growing underlying performance. After **normalizing the impact of interest expenses**, CHG's normalized net income **stood at EGP 359mn**, representing a robust **41% growth** compared to the same period in 2022. This strong performance is further underscored by a **one percentage point improvement** in the normalized net profit margin **on a quarterly and 9-month basis**.

Group Revenue Contribution by Hospital & Segment

All CHG hospitals witnessed exceptional year-on-year growth in patient volumes and optimized case mixes.

Cairo Specialized (CSH), Nile Badrawi (NBH), and Al Sherouk (ASH) hospitals each reported top-line growth rates of over c.30 for the first nine months of 2023, setting new all-time performance benchmarks.

CSH emerged as a frontrunner, achieving double-digit growth across all key volumes, delivering the highest top-line growth rate among the Group's facilities leading to an additional 2 percentage points expansion in its EBITDA margin in 9M23.

Overall, CHG is highly streamlined and technologically advanced, with a focus on expanding its service offerings and enhancing its overall capacities to accommodate more refined case mixes across its facilities in a one stop shop operating model. CHG also emphasizes the strength and effectiveness of its referral network, which spans across Egypt and continues to grow consistently.

Key Revenue Drivers

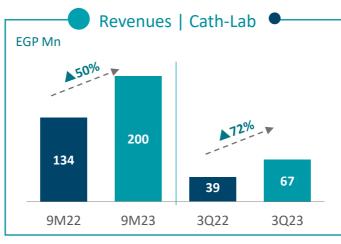

CHG's strategic focus on organic growth drives a 9% increase in cases served for 9M23. Volume growth was primarily fueled by core business volumes where outpatients grow by 14%, inpatient cases rise by 10%, and surgical procedures increase by 6% on the back of rapidly ramping up Centers of Excellence that continue to capture patients' entire treatment journeys. CHG's holistic approach to healthcare underscores the group's commitment to meeting the market's high demand for inclusive quality healthcare services. Management continues to focus on strategic investments in Centers of Excellence aiming to complete patient treatment journeys across various key service offerings.

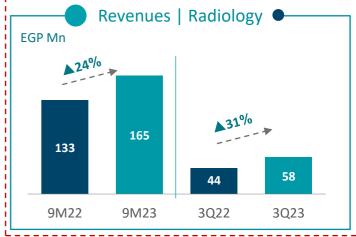

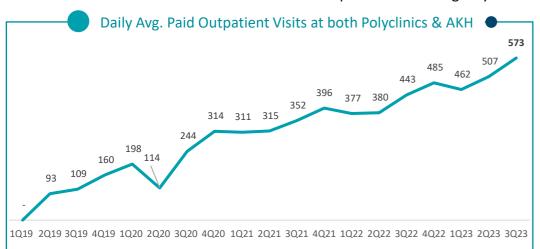

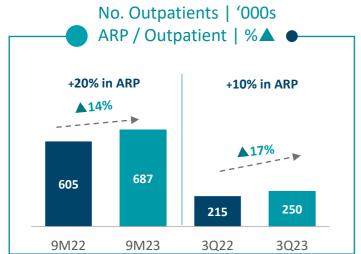

Growing Refined Mix of Patients Base

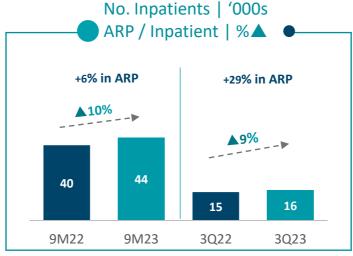

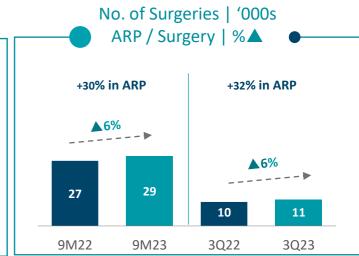

The Group offset the revenue high base effect created by the significant Covid-related inpatient revenue in the first quarter of 2022, which was characterized by higher average revenue and longer than average length of stays. The Group's core business volumes maintained their trajectories, displaying a substantial growths in 3Q23 and 9M23. This was propelled by the Group's continuous investments in its Centers of Excellence that enabling its hospitals to serve as comprehensive healthcare destinations from outpatient and emergency care through to the completion of entire treatment journeys.

Promising Performance Outlook

Annual Top Line Growth of over 20% till FY2028

- Growing utilization rates that are supported by growing volumes across all facilities in a growing market.
- Centers of Excellence continue to grab patients' entire journeys as they ramp up efficiently.
- Al Katib Hospital, Polyclinics, and Bedaya maintain their steep growth trajectory on the back of growing utilizations and market differentiation strategies
- Cleopatra October and Sky Hospitals are positioned as two flagship facilities that fuel the Group's consolidated double-digit growth for years to come
- CHG's International Business Unit, attracting global patients, will be a revenue driver on the back of compelling value & quality propositions that outshine regional competitors

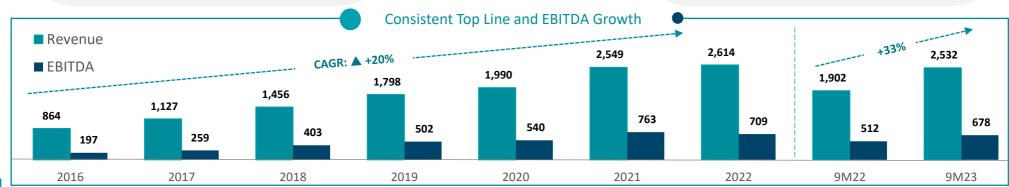

Powering exponential topline growth over the coming 5 years on the back of thriving core business growth, that will continue to generate higher profitability on the back of operational excellence and consistent case mix enhancements

- CHG's price bargaining power, backed by backed by its extensive patient base, wide network coverage, and scientific approach to costing of service offerings will facilitate consistent doubledigit annual price increases in the coming years
- CHG's multifaceted optimization strategy continues to drive efficiencies in Wages & Salaries and Doctor Fees, enabling CHG to generate higher profitability from its top line growth year on year
- Maintaining cost discipline coupled with economies of scale and proactive group-wide supply chain management, will continue to enable CHG's resilience against inflationary and availability pressures of key medical supplies, while maintaining key low Purchase Price Variances.
- As Centers of Excellence continue to attract preferred case mixes & niche specializations, profitability levels will continue to expand
