# **CHG Financial Highlights**

As CHG transitioned beyond the Covid-19 pandemic and witnessed a remarkable surge in its business throughout 2023, management has been diligently focused on sustaining this upward trajectory throughout 2023 by consistently reinforcing the Group's core business.

The strength of CHG's core business enabled a seamless transition from the pandemic and paved the way for continued success. In 1H23, the Group recorded an 8% increase in cases served, with surgical and catheterization procedures showing growth rates of 6% and 9% respectively.

Additionally, inpatients and outpatients served across the Group witnessed respective increases of 11% and 12% during this period. These results confirm the robustness of CHG's organic healthcare services and highlight the company's ability to surpass prepandemic patient volume trends at even steeper rates in the short to medium term while maintaining profitability.

Note\*: Cases served includes number of in-patients, outpatient visits and ER visits.

# **Leading Healthcare Services Platform in Egypt**

CHG was a pioneering force in Egypt's private healthcare sector, recognizing its potential early on. The Group introduced an innovative 360-degree integrated management system, *focused on delivering quality patient care and safety outcomes*. This holistic approach positions CHG as the preferred healthcare provider for both commercial and private patients in Egypt.

# **Capital Resources**

- Only Healthcare Group of Facilities that is publicly listed on EGX
- Institutional Backing & Strategic Partnerships

- Solid capital structure base, with Debt/Adj. EBITDA of 47% as of FY22
- Consolidated operating cashflow CAGR of c.40% since listing to FY22

- Key partner in the Egypt's 2030 Universal Healthcare Initiative
- **Institutional dominated** shareholding structure

### **Innovation**

- State of the art equipment & infrastructure
- Centers of Excellence that capture entire treatment journeys & focused on delivering quality patient care and safety of outcomes

 Growing roaster of fully integrated Centers of Excellence (CoEs) across high demand specializations

CHG introduced the first robotic surgical unit, branded as RoboSurge, in a private hospital group in Egypt.

# **Economies of Scale**

- Largest patient base at a private healthcare provider, with a growing network across Greater Cairo
- · Market bargaining power

 Group serves over 1mn cases and conducts over 35k surgical procedures on an annual basis

 CHG is the largest private sector medical procurer of volumes across the sector's suppliers.

### **Integration**

- Integrated Group of facilities that enable cross asset functionality
- Strong ability for synergy and efficiency extractions as the Group grows

CHG is the only **fully integrated group of facilities** in Egypt by virtue of its
developed **HIS/ERP system, Clinysis**.

Integrated supply chain enabling profitability margin expansions; CHG avoided c.EGP 55mn in costs YTD

### **Robust Business Model**

- Inorganic Growth: Synergistic Bolt-on acquisitions & Asset Light models
- Organic Growth: Consistent service offering expansions capturing entire treatment cycles

 CHG manages 732 beds on the back of strategic M&A activity since FY14 to FY19, and c.300 beds anticipated by FY25 via management contracts

Capacity optimization across the Group's facilities coupled with ramping up CoEs that feed CHG with a growing & refined patient base

### **Leadership & Governance**

- Institutionalized healthcare provider with a distinguished Board of Directors
- Experienced centralized management team that fosters sustainable growth

 A centralized recruitment team overseeing all CHG's employment activities & allocating personnel effectively across the Group

Scheduled development programs across all functions of medical and non-medical practices

# Large, Attractive, and Resilient Growth Market

Egypt's health spending has increased at a greater pace over the past decade and is now above global and EM median as of 2022

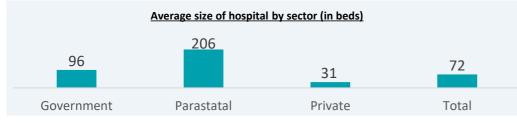

- Doctor/1,000 population ratio for Egypt is better than both MENA and GCC averages and for nurses it is at par with the MENA ratio.
- Beds/1,000 population in Egypt significantly lags MENA and GCC countries requiring significant investment to catch up with regional benchmarks
- Investments in healthcare infrastructure with an aim for comprehensive and technology driven healthcare provision will be key for Egypt's healthcare sector development the coming years

- Egypt is currently witnessing high private insurance and direct healthcare coverage contracts penetration, on the back of a growing middle class population that demands quality private healthcare services.
- Egypt's private healthcare sector offers lucrative opportunities
  on with the increase in population being a key driver. Egypt
  requires approximately 38,000 new beds (based on Egypt's
  ratio 1.3 beds/1,000 population) with an estimated investment
  of USD 8-13 billion to fill in the growing demand gap.

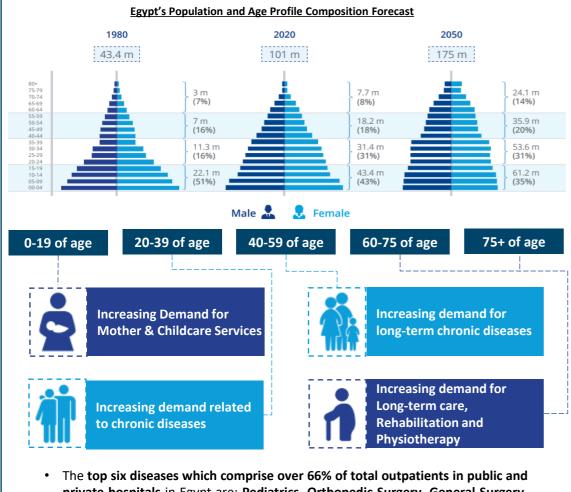

- During 2011–2019, number of beds in government sector (including parastatal sector) decreased at a negative CAGR of 0.8%, while private sector witnessed growth at the rate of 3.7% in number of hospital beds, reflecting increasing demand for private inpatient services.
- The growth of the healthcare sector in Egypt will be dependent upon embracing, developing
  and adopting new technologies and innovations within the private sector, with a focus on
  sizeable data driven, patient centric, and result oriented healthcare providers.

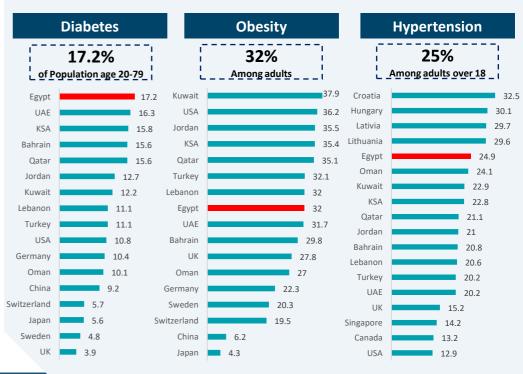

Sources of included data: World Bank, IMF, CAPMAS, & Colliers Consulting

# **Growing Population & Prevalence of Lifestyle Diseases**

- The top six diseases which comprise over 66% of total outpatients in public and private hospitals in Egypt are; Pediatrics, Orthopedic Surgery, General Surgery, Dermatology and ENT.
- In the private sector, Internal Medicine, Pediatrics, OBG, ENT and Orthopedic Surgery comprise 48% of the total outpatient visits. This indicates that the demand for these specialties in Egypt is high and growing at a steep trajectory.

- The current population of Egypt stands at 105 mm (as of 2023) rising from 80 mn in 2010, a CAGR of over 2% for this period. Projections forecast Egypt's population to reach 130 mn by 2030 and 175 mn by 2050.
- Currently, 74% (c.75mn) of the population is under the age of 40 years and this is expected to increase to 86 million by 2030 and 115 million by 2050.
   8% of the population is over the age of 60 years, which is expected to increase to 18 mn by 2030 and 24mn by 2050.
- The rate of Lifestyle diseases in Egypt has been growing exponentially.
   Diabetes, Obesity, and Hypertension related diseases have been on the rise amongst Egypt's adult population, indicating the need for Centers of Excellence that tackle this prevalence. Noticeably, these centers have been growing in numbers across the region on the back of this dominant trend.

Centers of Excellence	Focus on Orthopedic and Neurology	Introduce Cardiology CoE complemented with cathlabs			
Outpatient Clinics & ER	Roll out the hospital's first phase of outpatient clinics complementing West Polyclinic	Brand and position the hospital as a fully loaded tertiary care hospital			
Diagnostics	Enhance Lab capabilities on the back of medical CAPEX investments	Inaugurate full fledged radiology & lab services supported by latest technologies			

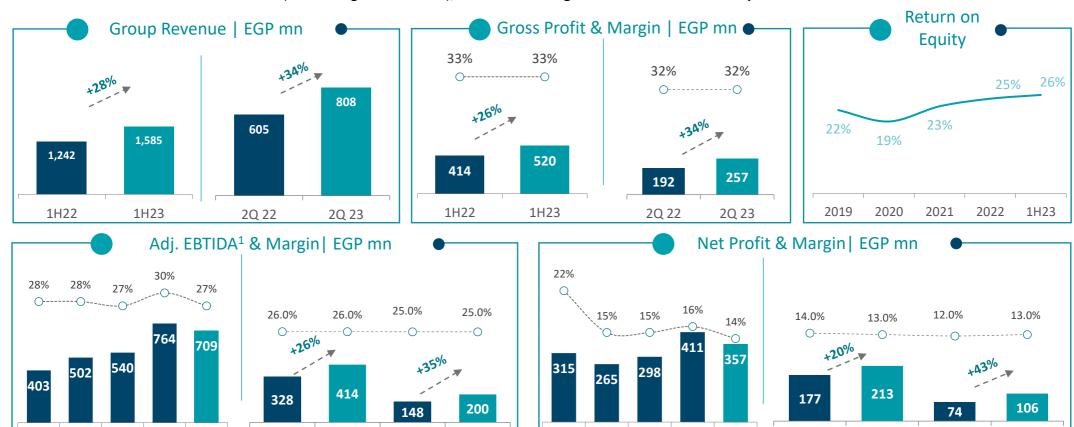

# **2Q23 Financial Performance Overview**

CHG has seamlessly maintained its upward growth trajectory through 2Q23, recording EGP 808mn in revenue, showcasing a remarkable 34% increase compared to the same period in 2Q22. As a result, the Group's consolidated performance for 1H23 surged by a robust 28%, reaching an unprecedented top-line figure of EGP 1,585mn.

In 1H22, the Group's consolidated revenues encompassed Covid-related revenue due to Queens Hospital's Covid designation during the initial quarter of 2022. If we exclude this direct Covid-related revenue (amounting to EGP 30mn) and factor out the indirect Covid contribution from diagnostics and consultations for suspected Covid cases across CHG's other assets (amounting to EGP 42mn), the remarkable growth of 36% in 1H23 compared to 1H22 becomes all the more evident.

# **Efficiency Strategies Lead to Optimized Profitability**

CHG demonstrated sustainable productivity as management's multi-faceted optimization strategy continues to mature, management realized efficiency in the Group's Wages & Salaries component of its cost structure. The Group recorded 36% growth in Group's core business revenue throughout 1H23 while achieving efficiencies on both fronts.

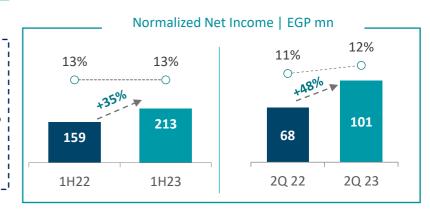

Profitability and margins remain preserved, management has effectively balanced the growth of its core business with the profitability of COVID-related services in comparable periods. This was made possible by shielding CHG's margins from inflation and supply chain pressures. Gross profit and EBITDA margins remained stable on both a quarterly and half-year basis, with a one-point expansion in EBIT margins. Operational efficiencies, cost management, and strategic price increases since January 2023 contribute to this stability.

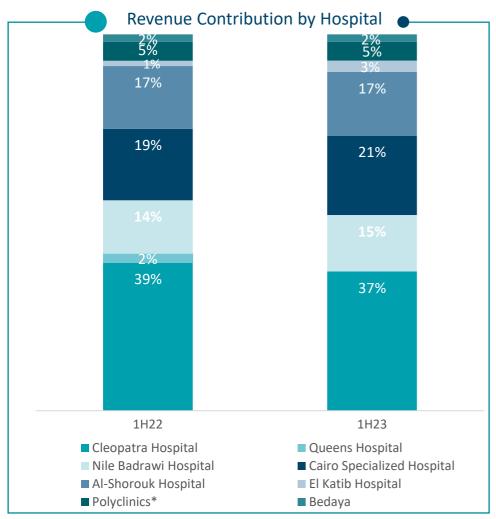

The Group's Income Statement saw a 106% increase in interest expenses in 1H23 due to ongoing interest rate hikes and the Group's recent capital structure optimization efforts to partially fund the Group's expansionary plans through project finance. Normalizing net income to exclude the impact of interest on both periods' income statements, CHG's normalized net income stood at EGP 213mn, representing strong 35% growth compared to the same period in 2022, with a stable associated margin of 13% compared to 1H22.

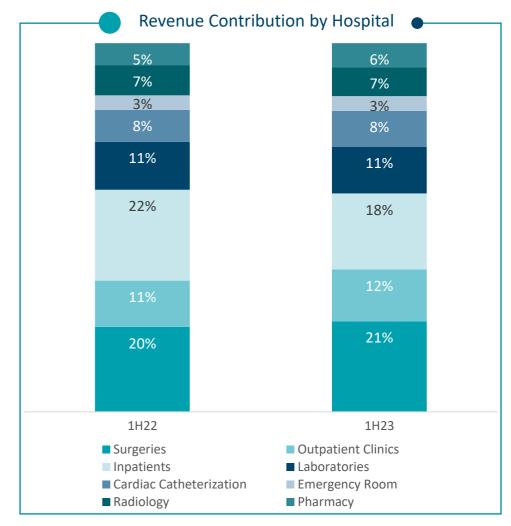

# **Group Revenue Contribution by Hospital & Segment**

All CHG hospitals experienced strong YoY growth in patient volumes and optimized case mixes. Cairo Specialized (CSH), Nile Badrawi (NBH), and Al Sherouk (ASH) hospitals each reported top-line growth rates over c.30% for both Q2 and H1 2023. CSH stood out with a nearly 30% and 25% increase in cases served during Q2 and H1 2023. respectively, contributing to a robust top-line expansion of over 40% in both periods. Targeted investments and strategic capacity enhancements have management confident in maintaining this positive momentum.

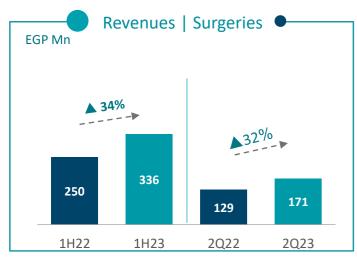

\*Polyclinics revenues include revenues from the Group's East and West Cairo Polyclinics as well as CHG Pharma.

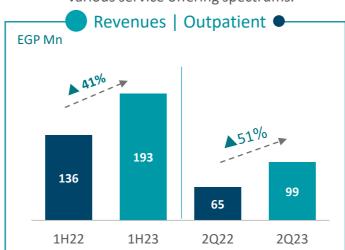

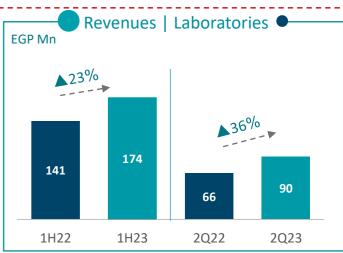

# **Key Revenue Drivers**

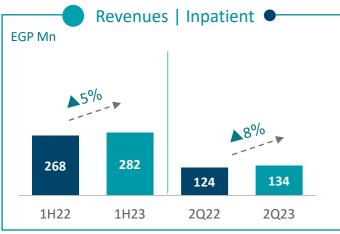

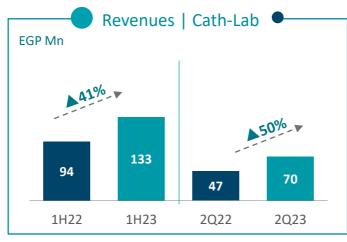

Both patient volumes and case mixes across CHG facilities continued to improve in 2Q23. The Group saw overall cases served growth of 8% in 1H23, fueled by growth rates of 12%, 11%, and 6% in outpatients, inpatients, and surgical procedures respectively. This growth trend, combined with CHG's holistic healthcare approach, underscores the group's commitment to meeting the market's high demand for inclusive quality healthcare services. Management continues to focus on strategic investments in Centers of Excellence that are complemented with commercial strategies that target complete patient treatment journeys across various service offering spectrums.

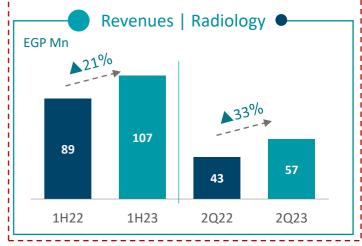

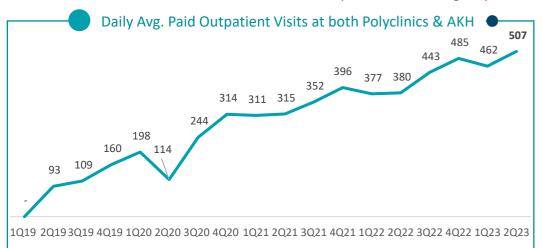

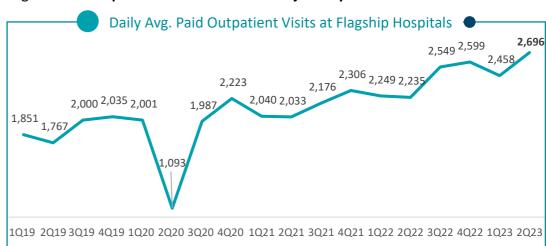

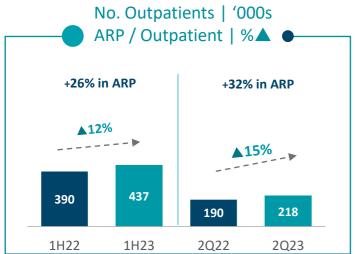

# **Growing Refined Mix of Patients Base**

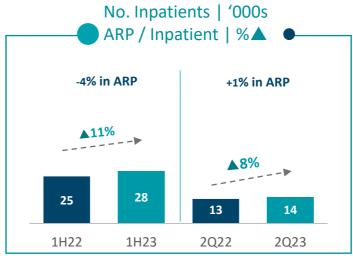

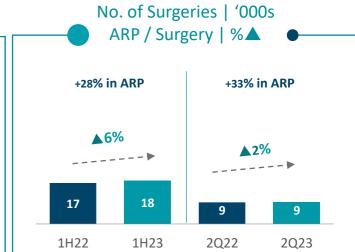

The Group offset the revenue high base effect created by the significant Covid-related inpatient revenue in the first quarter of 2022, which was characterized by higher average revenue and longer than average length of stays. The Group's core business volumes maintained their trajectories, displaying a substantial growths in 2Q23 and 1H23. This was propelled by the Group's continuous investments in its Centers of Excellence that enabling its hospitals to serve as comprehensive healthcare destinations from outpatient and emergency care through to the completion of entire treatment journeys.

# **Promising Performance Outlook**

### Annual Top Line Growth of over 20% till FY2028

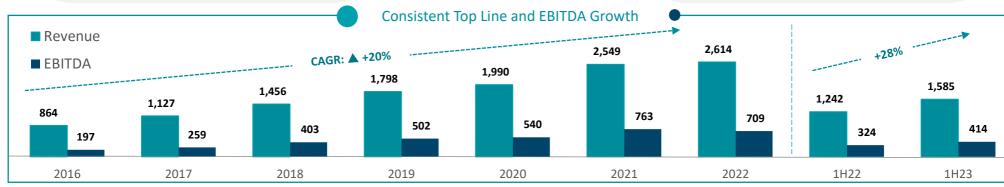

- Growing utilization rates that are supported by growing volumes across all facilities in a growing market.
- Centers of Excellence continue to grab patients' entire journeys as they ramp up efficiently.
- Al Katib Hospital, Polyclinics, and Bedaya maintain their steep growth trajectory on the back of growing utilizations and market differentiation strategies
- Cleopatra October and Sky Hospitals are positioned as two flagship facilities that fuel the Group's consolidated double-digit growth for years to come
- CHG's International Business Unit, attracting global patients, will be a revenue driver on the back of compelling value & quality propositions that outshine regional competitors

Powering exponential topline growth over the coming 5 years on the back of thriving core business growth, that will continue to generate higher profitability on the back of operational excellence and consistent case mix enhancements

- CHG's price bargaining power, backed by backed by its extensive patient base, wide network coverage, and scientific approach to costing of service offerings will facilitate consistent doubledigit annual price increases in the coming years
- CHG's multifaceted optimization strategy continues to drive efficiencies in Wages & Salaries and Doctor Fees, enabling CHG to generate higher profitability from its top line growth year on year
- Maintaining cost discipline coupled with economies of scale and proactive group-wide supply chain management, will continue to enable CHG's resilience against inflationary and availability pressures of key medical supplies, while maintaining key low Purchase Price Variances.
- As Centers of Excellence continue to attract preferred case mixes & niche specializations, profitability levels will continue to expand

# **Governance (I)**

The Group's Board of Directors provides the necessary oversight and combination of expertise to thoroughly oversee the Group's corporate governance framework, a cornerstone of the Group's long-term success and value creation.

# **Governance (II)**

### **OPERATIONS**

### **ABC**

- CHG has a zero-tolerance approach to bribery and corruption with a clear anti-bribery and anti-corruption policy for all stakeholders to abide by
- CHG follows all applicable local laws and more stringent international frameworks to ensure that there are no facilitation or bribery payments made

### No Referral Fees

- CHG does not pay any referral fees or kickbacks to physicians and instead has recently developed a Doctor Sales team to revolutionize the sector in Egypt
- The sales team focuses on improving the hospital service to the physician and maintains close communication - improving loyalty and engagement

### **Medical Council**

CHG recently launched a group-wide medical council
with multiple responsibilities – including (1) ensuring
that medical personnel are providing the best medical
care and outcomes for their patients (2) keeping CHG at
the forefront of medical research and technology across
all relevant services

### **Audit Committee**

 The Audit Committee oversees the Group's financial controls with emphasis on: (1) integrity of internal controls and financial reporting; (2) performance of the internal auditors and the function (3) review of audited financials and external auditor performance (4) compliance with legal and regulatory requirements

### **Remuneration Committee**

- The remuneration committee has established a formal and transparent process for fixing and reviewing the remuneration for the senior executives of the Company
- The remuneration committee also reviews KPIs and achievement of the Group's targets

### **Quality & Medical Ethics Committee**

- The Quality and Medical Ethics Committee reviews the quality of care provided to the patient as well as medical KPIs for the Group in line with international standards
- The committee reports to the board compliance with the Group's Quality manuals and realization of medical outcomes
